Entering the outsized Zen entrance door, one steps across the Koi pond with a waterfall into a U-shaped

courtyard. Four bedrooms plus the principal living area surround a tranquil garden courtyard focused on an infinity salt water pool. An open concept kitchen/living room/den overlooks the terraced jungle garden stream on one side, and rice fields on the other. Each luxurious bedroom with ensuite bathroom faces the courtyard, and has its own serene walled garden behind. The modern architectural aesthetic compliments the traditional built-in teak king and queen bedroom sets and furniture. From the living room, take in the beautiful river jungle view on one side, or watch the everchanging rice terrace cultivation on the other. Along the narrow scenic front road, witness the occasional joggers, dog walkers, and colorful village processions. A large, lockable garage with workbench and large windows overlooking the rice fields compliments the property, and could easily double as a studio space. The villa, completed in 2022, has been upgraded and waterproofed to North American standards.

Located on a scenic road on the outskirts of Mas village, the property is just five minutes away from the Titi Batu club, and only 25 minutes from Green School, Sanur is easily reached in 35 minutes.

Don't miss this amazing opportunity to own this piece of tranquil paradise.
